## Description

We are looking for a Business Analyst to join our team in the UK industry. As a management consultancy business analyst you will be the core investigative and problem-solving engine, bridging the gap between high-level client goals and actionable operational changes. This position offers the opportunity to work on a variety of projects, collaborate with other team members, and contribute to the success of our projects.

## Responsibilities

- **Data Gathering & Research:** Digging into a client's financials, operational workflows, and market position through interviews, workshops, and large data sets.
- **Process Optimization:** Mapping current business procedures to spot bottlenecks, inefficiencies, and hidden costs.
- **Solution Design:** Translating complex client problems into structured, practical recommendations and business cases.
- **Stakeholder Alignment:** Communicating findings clearly to corporate leaders while ensuring technical and non-technical teams stay on the same page.
- **Change Management:** Helping organizations adopt new strategies, software, or workflows smoothly.
- **Analytical Thinking:** Breaking down messy, ambiguous data into clear trends and insights.
- **Commercial Awareness:** Understanding how businesses make money and how specific changes improve market performance.
- **Communication:** Presenting data-driven stories and reports that convince senior executives to take action.
- **Technical Literacy:** Navigating data tools (like Excel or SQL) and understanding how IT systems support business growth.

## Requirements

- Proven experience as a Business Analyst or similar role.
- Strong knowledge of client-side projects
- Good understanding of the role principles.

The training will be given continuously. Our Employers hold an A-rated Sponsor License from the UK Home Office, hence the UK Skilled Worker Visa Sponsorship is provided with CoS for 3 Years. The company will take care of the maintenance of the employee and the employee's family.

**Start Date :** Immediate

**Salary:** £52000 per annum plus incentives

**Location:** Remote
